We can't picture the satisfaction men get from their Clothcraft Clothes. But come into the store and we'll show you the suits and tell you why they fit so well, wear so well, look so well—and cost so little.

W. H. KRUEGER

TO THE DEMOCRATIC VOTERS OF ROCKCASTLE COUNTY:

I hereby announce myself as a candidate for the office of County Attorney. If nominated and elected, I promise a clean, sober, fair, business-like and impartial enforcement of the law.

In announcing my candidacy for election, I further promise to uphold the rights of the poor as the rich; the low as the high; of those who have no political influence the same as the influential; the country man as town-man; the Republican as the Democrat; and the black as the white.

All religious faiths will be protected alike.

To the financial affairs of the county, I will give my particular attention, in order to enable its citizens to derive the greatest possible benefits from the low tax rate.

To those who do not know me personally, I wish to say that I came to this County from Lincoln County twenty-five years ago, I then being seven years old. Rockcastle County has been my home since childhood, and this is the first time that I have asked of the voters of Rockcastle County for a public office.

No political leaders, or supposed political leaders, in Mt. Vernon have either asked or urged me to make this race, but a good many country people insisted that I should. After giving it considerable thought, I have decided to submit my cause to the Democratic voters of Rockcastle County.

For seven years I have been in the practice of law, and, in addition to that I have had twelve years business experience. I feel that I am amply capable of filling the office of County Attorney.

Before August 4th I shall endeavor to see each voter, but, should I fail, I will appreciate your support.

Yours truly,

W. H. KRUEGER.

create and then swallow and destroy their own creation. Be careful what you imitate.

I have so far made no charges, neither have I defended the Fiscal Court. I am not running for the position of "FISCAL COURT". But granting that the charges which you have preferred, are all true. What have you been doing? What has the people been paying you for? I thought it was your duty as the paid Attorney of the people to look after their interests. It seems to me that it is bad grace for you as a paid official of the people, to begin at this late day to notify the people, and at the same time shouting and trying to maintain your own innocent. If your statements are true; you are either guilty of criminal negligence, putrid laziness or profound ignorance.

As for my record at Frankfort, I doubt if it smells as strong of "Booze" as some of the "Blind-tigers and Booze venders" in this County, who seems to have thrived during your four years term of vigorous prosecution? And "Strict but fair enforcement of the law".

As to my being eligible I ask the voters not to become confused at the wailing of a cry baby or the noise of a Political Coward. The party is not in danger. The Ship of State is not sinking nor even leaking. Ed has just fallen over board, that's all, and is floundering in the water, screaming and trying to excite the voters to throw out a life line and save him on August 4th. He says that I am hazarding the party. Gee! Such a manifestation of Party loyalty, interest and devotion. It is almost Spiritual in its delicacy and beauty.

He suggested that the voters compare our "Private Careers". I can save you [that] trouble, [and] possible, myself some embarrassment, in the comparison, by just admitting that I am not so important as he. For if his high station in private life in the least compares with the high manner in which he carries his head, I can assure you that I will not measure up to his knees. I should think it will be a little trying for one living and enjoying such an exalted state of official and private success to climb off his "perch" for two long, hot summer months before the election, to mix and mingle with me, common and less successful ones, and occasionally, possibly co-descend to engage in a few sweet words, low crooked courtesies and base spaniel fawning with some voter. I certainly congratulate you, Ed, on such a nerve. But again, such reckless conduct, on your part, will be fraught with great danger. Your successful Official and Private careers naturally had a tendency to make you cold mannered—even almost frigid. I fear that when suddenly you warm up to the voters, the sudden change of temperature may give you "Fever". Be careful Eddie Dear.

I could say lots of things concerning his record, or (lack of record), but you know the County does not furnish me with two Offices to write and work in; besides, I am busy trying to see the voters and other people, trying to improve my "Private Career".

I am sorry that Ed has seen fit to start this newspaper "Stuff". I had rather not indulge. I am now willing to play quits. It sounds childish. I want to make a clean fight, such as all Republicans should make against each other, notwithstanding the fact that I am in possession of a super-abundant supply of ammunition, accumulated during the last four years and touching certain events in a not very remote nor forgotten past. They will make, not nice, but very interesting reading. So Ed, suit your self "Old Top". I would not restrain your ensanguined ardor nor disarrange a hair on the well kept oreole which covers your classic brow.

So "Lay on McDuff." (Bray) on Ed.

Yours very kindly,

E. B. THOMPSON.

WINCHESTER

By "J. M."

The oil fields of Estill county have certainly livened up things in Winchester. In 1916 there were, probably, 150 vacant houses bearing the signs: "for rent". There are none today and numerous new buildings are being erected. Men interested in oil have located their families here on account of good schools and many other conveniences, and use the railroads between here and Estill in looking after their business in the oil fields.

Upon inquiring it is found that among various patented power hemp breakers, only a partial success has been reached.

They do the "breaking" all right but tangle up and cut the fiber in many instances. Inventors are still at work upon the problem. A big crop has been sown this year. The good prices secured for last year's crop induced many to plant this season and it is believed a big crop will not lessen the price.

A big raiser told the writer that there is good money in hemp at ten dollars, whereas prices have been running as high as \$18.50 per hundred pounds. Some velvet for the raiser.

Many inquiries are made about C. C. Davis and family by folks here, who regret their having removed from Winchester back to Mt. Vernon and yet hope for their return to the capitol of Clark.

More acreage is now held in Kentucky petroleum operations than in any other field in the United States. Most of the leasing has been done by the largest companies in the industry, which means that the state will be given a thorough testing. Many of the large developing concerns have geologists going over the field, one concern, the Empire

Oil and Gas Co., at this time having a staff of 15 geologists at work in Kentucky. Geologists command a salary of \$25 per day.

While Clark county hasn't so many candidates as Rockcastle, they are just as busy and a "little to rise."

The bathing season will open at Boone Beach, Boonesboro, as soon as winter breaks. This report is going to prove one of the most popular places to be found anywhere in our Commonwealth. "Uncle Billy", of Winchester is making big efforts to secure the appointment as bathing costume censor.

The eleven store rooms on Main street that were vacant last year are all occupied now, a number of them by oil supply companies.

The county force is at work completing that portion of Paris Pike that was unfinished last fall. Done Way is routed over this road.

The men's class of the various Sunday schools are arranging for a union picnic and outing down on the river. It is an annual custom. None but men attend. They wear their old clothing. If a man is caught on the grounds with a collar and tie on, he is immediately court-martialed and these ornaments thrown into the river. They are all "boys" on that day, and any member failing to kick up his heels and make a noise is looked upon with suspicion.

The writer had the pleasure of meeting Miss Bessie Taul Corkright, a writer of some note, and who is state agent for Cattrell's history, which came from the press March 15th. The work is by a teacher who was the first professor to teach Ken-

the L. & N. distributes \$148,300 throughout the South for operation of its trains and up-keep of its property.

This daily distribution is made possible through the successful management of a constructive railroad which is an important factor in Southern progressive development and commercial supremacy.

Because the L. & N. realizes that its interest and the interest of the people are mutual, it co-operates in every possible manner for better farms, (the foundation of all prosperity); for better industrial conditions; for better commercial co-operation; for better educational facilities; for more cordial social relations.

Through their share in the L. & N.'s daily distribution of \$148,300 many individuals and enterprises are able to realize their desire for business prosperity and personal happiness.

A considerable portion of the \$7,200.00 paid daily for taxes is devoted to Southern education.

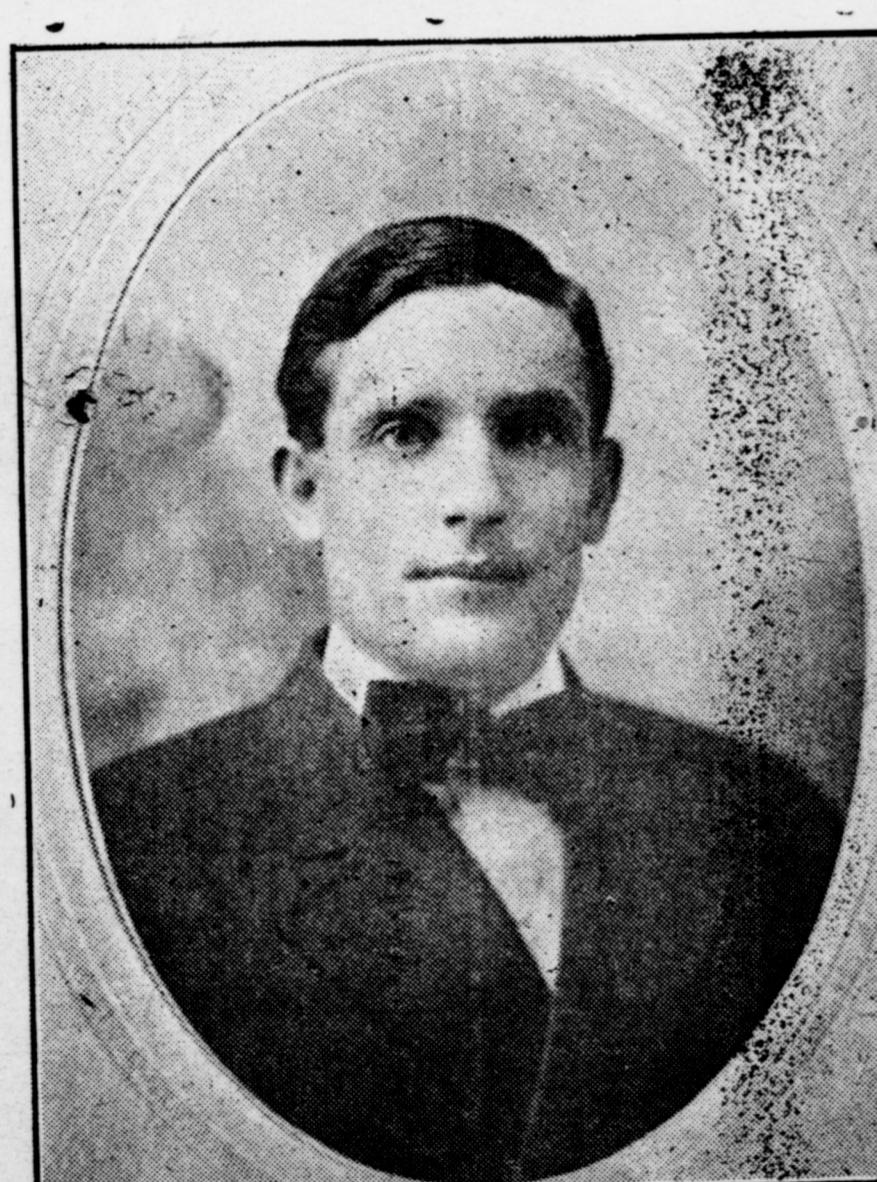

One out of every ten people derives his or her means of livelihood directly or indirectly from the railroad industry. The L. & N. operates in nine Southern states. Therefore the ability of the L. & N. to operate successfully is a matter of vital concern to Southern prosperity.

E. B. THOMPSON

I am indeed sorry that My opponent, Mr. Gentry, has seen fit to resort to newspaper gossip during this campaign. I had hoped that each and every candidate for the various offices would prove to the public generally, that they are not children, but men, big enough to deserve the confidence and support of every voter in the County.

If you remember my announcement was very brief. I was especially careful to avoid harsh terms. But it seems that the word FAILURE, as used thereto, has lain heavily on my Opponent's stomach, and being unable to digest it; in the last issue of the Signal he tried to play the Buzzard.

I don't believe that any intelligent, impartial man who has read my announcement, has or can place such a construction on its meaning as he has. Neither do I believe that his imagination is so vivid and penetrating that he has gleaned therefrom any such meaning or intent. But I do believe that he has been told this by someone, whose (Puppet) he is, or else, he has lately awakened from a four years imitation of Rip Van Winkle and has dreamed that it would be nice if I would be foolish enough to try to defend his administration. But Ed I refuse to attempt such a colossal task. Besides, your record for the last four years is your own. The child is yours. I refuse to be a guardian for such a ward. Stand by it Ed. You can't disown it. It is snakes and reptiles that

MODERN WAR AND PROHIBITION

With the declaration of war with Germany, and the enactment of the selective draft law, we have assumed obligations whose ultimate ends no man can foresee. Primarily we have now become responsible for the preparation of hundreds of thousands of young men for the stern duties and hardships of war, and, in the natural order of things they will constitute the human element available for the nation's defense for many years to come. The nation owes it to the young men who are selected for military training and service that, from the very first they shall know that the training will be carried on under circumstances above reproach.

The development of minds and bodies to meet the demand of military service in war requires not only the most modern hygienic surroundings, but the absence of every form of personal dissipation. And one who sells or gives intoxicants or drugs of any kind to young men undergoing training for the nation's defense not only commits a crime against the individual but a treasonable act against the nation.

The experience of European nations has made it clear that to maintain a modern army in the field there must be organized industry at home. Anything that militates against this is depriving the human element of its normal energy, working under war pressure, must be combated and if need be destroyed.

The public is far better advised today than ever before, concerning the efforts of the habitual use of intoxicants in producing criminal, insane and untrustworthy men and women and de generate children. Prisons, asylums and public reformatories furnish continuous and abundant evidence along these lines. The increasing undiscipline of Americans has been observed and noted by investigators and students for many years. This is evidence

LIVINGSTON

ed in lack of respect for parents, for the aged, for the officers of the law and for the law itself. It has also been a uniform observation that these conditions become aggravated whenever and wherever intoxicating liquor are habitually used. Confronted with these facts we are about to undertake the creation of a large army of the young people, and to prepare it for participation in the most gigantic struggle in the history of war.

When the army was reorganized in 1901, following the war with Spain, there was introduced in the Act, prohibitory legislation regarding the sale of wine and beer upon military reservations. There was much resentment on the part of the army at this discriminatory legislation, for while it introduced prohibition on reservations it encouraged border line saloons in surrounding territory. The aggravation was grave in states like Kansas where prohibition was a sham and a public danger, the laws being ignored in the most open and flagrant manner.

In the course of time the abolition of the sale of beer and wines—alcoholic liquors we previously barreled—on military reservations, and naval regulations banished intoxicating drinks from war vessels. Modern battleships, destroyers and submarines had become too complicated to be entrusted in any part to minds clouded with drink. Efficiency and safety of operation alike demanded the exclusion of liquor from war vessels and it is certain that if the restoration of the wine mess for the period of the war were put to a vote of naval officers it would be overwhelmingly defeated.

Observing the operations of the so called anti canteen law which stopped the sale of wine and beer at post exchanges or cantines, it was found that for a time the offenses involving drunkenness increased at army posts located in territory where saloons were permitted to exist. This was credited to the fact that men went to considerable distance from barracks for liquor, and not expecting to repeat the trip soon indulged in too much for their own good. The statistics of disciplinary action through a number of years seemed to establish that more than fifty per cent of the cases of desertion and absence without leave were due to drunkenness.

While the current returns of the internal revenue bureau of the treasury make it appear that the income from the manufacture of beer and liquors has steadily increased, there can be no question that the temperance and total abstinence campaigns of the past few years have brought about a marked change in American life. It is no longer fashionable to serve wines and liquors in the lavish way which obtained in former years. That temperance has won a lasting victory is attested by the large increase in territory covered by prohibition laws, and in the drastic regulations governing the employment of men in dangerous occupations, where individuals may be and often are responsible for the lives of others. If this applies in the operations of railroads and great industrial establishments, how much more should it apply in the cases of the officers and men called to the colors to uphold the honor of the nation and to defend its material interests.

Of course it is absurd to inaugurate complete prohibition until, as a nation, we are prepared to abandon taxation of manufactured intoxicants. After many years' observation of the efforts of drink upon our soldiers, it is the unquestioning opinion of the writer that the proceeds of governmental taxation of stills and breweries is, to say the least, no compensation for the misspent lives and stunted brains of those who are addicted to drunkenness. If it requires war time prohibition to insure an absolutely sober and dependable army we should have it, and the sooner the better.

BRODHEAD

For fear our Livingston friend
will continue to think that
we are too proud to fight, or that
he bluffed us with the poetry that
some body else composed, we
will try to write a few items that
has taken place since our last letter.—About two weeks ago Mrs.
C. H. Smith, died at the home of
her husband's parents, near Con-
way, after a short illness, leaving
a two day old baby boy. Mrs.
Smith was before her marriage
Miss Leavie Cherry, daughter of
the late Mr. and Mrs. John T.
Cherry, and a sister of J. Thos.
Cherry, a prominent merchant of
Crab Orchard. As soon as Mr.
Cherry was notified of her death
he, with Postmaster Granville
Owens, went to the residence of
Mr. Smith and made immediate
preparations for the burial, which
took place at the Baptist church
cemetery the following day after
short services by Eld. L. N. Bowl-
ing, of the Christian church. A
number of years ago the late John
Cherry moved to this country and
lived here until his death some
two or three years ago. Of a family
of thirteen, J. Thos. Cherry, is
the only surviving member, his
father, mother and then brothers
and sisters are dead. The infant
child of Mrs. Smith died a few
days after the death of its mother.
—Since our last letter, Clarence
Roberts, youngest son of Mrs.
Sallie Roberts, of Gum Sulphur,
and Miss Essie Haney, daughter of
Dr. and Mrs. I. J. Haney, of

Black, aged 55, a soldier in the
Civil war, died at his home late

Saturday. He received a small
wound in the corner of one eye as
a result of the explosion of a gun
cap during his army career, and
this wound in after years became
of a cancerous nature, eating deep
into his head, destroying his eye
and causing him to suffer untold
pain, which together with troubles
incident to his age caused death.
Besides his widow, he leaves sev-
eral children. His remains were
buried in the Methodist church
cemetery Monday afternoon after
services by the pastor, the Rev.
A. B. Potorf.—A few days ago as
the writer was walking along a
certain street in a certain town I
was reminded of a list of dents I
read several years ago intended
for the benefit of a young man:
"Don't marry a girl who will
sweep the back yard and carefully
place the rubbish taken therefrom
in the middle of the street, for
you will find the dirt taken from
the parlor floor under the cook
table in the kitchen". Rubbish
looks equally as well to the passer
by in the yard as on the street in
front of the nicely kept lawn, and

The publication of the names
of the men who are to contribute
to Kentucky's new tax Com-
mission is a highly gratifying
proof that an earnest effort is to
be made to administer the new
tax system in the spirit which
prompted the reform. The com-
mission is an excellent one, and
confidence is fully warranted
that it will do its very important
part toward making the new sys-
tem what its promoters intended
it to be. And no less encour-
aging than the selection of this
commission is the choice of John
Buechel as its expert adviser;

the record of Mr. Buechel as
City Assessor of Louisville fur-
nished ample evidence that no
better choice could have been
made. The first step to put the
new law into execution is decid-
edly a hopeful step.

CHOLERA MORBUS.

This is a very painful danger-
ous disease. In almost every
neighborhood someone has died
from it before medicine could be
obtained or a physician sum-
moned. The right way is to have a
bottle of Chamberlain's Colic and
Diarrhoea Remedy in the house
so as to be prepared for it. Mrs.
Charles Enyeart, Huntington,
Ind., writes: "During the sum-
mer of 1911 two of my children
were taken sick with cholera
morbus. I used Chamberlain's
Colic and Diarrhoea Remedy and
it gave them immediate relief."

WHOOPING COUGH.

In this disease it is important
that the cough be kept loose and
expectoration easy, which can be
done by giving Chamberlain's
Cough Remedy. Mrs. P. H. Mar-
tin, Peru, Ind., writes, "My two
daughters had whooping cough
I gave them Chamberlain's
Cough Remedy and it worked
like a charm."

WARNING TO CANDIDATES.

Under the late act of the Ken-
tucky legislature, all candidates
for the nomination and election
to any office are limited in the
expenditure of money, property or
the promise of money or property
or the promise of any appoint-
ment or special favor. They can
not even hire a man to go out to
elector for him, neither can they
sign notes, or otherwise influence
men to support them for any office.

SUPPLY OF CASKETS EXHAUSTED

By 6 o'clock to-night thirty
bodies has been brought into
Hickman from outlying points
to be prepared for burial. The
supply of caskets in the town
had been exhausted and five
bodies are being held at the pub-
lic library until more coffins could
be secured.

At Clinton, in Hickman county,
a check of the death list re-
ported showed that five persons
were killed there and that twelve
others lost their lives at Cypress,
a small nearby village. The list
of injured in the two towns was
estimated to be upward of forty.

At Bardwell, in Carlisle county
three persons are known to have
been killed and twenty five others
more or less injured.

At Dublin, in Graves county,
five persons were killed and
twenty five injured.

Many isolated points in the
stricken district are yet to be
heard from, because of the de-
struction of virtually all lines of
communications. Reports from
Ledsford and Greenfield, both of
which towns were reported to
have been hard hit by the storm,
to-night still were unavailable.

STORM'S COURSE ERRATIC.

The course of the course was
erratic. Reports its course and
direction, even were confusing,
but apparently it first struck near
Dublin and passed through that
town, creating havoc. Bardwell
the next town in its path, suffered
heavily, while much of the
territory in the immediate vicinity
escaped almost unscathed.

The storm then passed on to
Clinton and created havoc in the
residence district, wrecking more
than fifty houses. As the storm
approached Hickman it apparently
divided and went around the
place, leaving wrecks and ruin on
all sides, but doing little damage
in town itself beyond unroofing a
few houses and putting tele-
phone, telegraph and electric
light wires out of commission.

Bardwell was next in the
path of the storm, which then
passed into Tennessee.

The property damage in the
storm-swept district was large.
It has not yet been possible to
estimate it. The loss about Hick-
man and other parts of Fulton
county is expected to reach be-
yond \$500,000. At Bardwell where
the loss probably will aggregate
\$500,000, every business
building in the town was de-
stroyed. In and about Clinton
the damage will probably reach
\$400,000.

No losses sustained elsewhere.

WINCHESTER

(Continued from 1st page.)
tucky history in a Kentucky college—the Wesleyan at Winchester. The writer is much pleased with this history especially that portion dealing with the subject of Daniel Boone and noted pioneers.

"Uncle Billy" got off the following in Winchester Courier: Col. Jimmy Maret is back home from Texas. He said he didn't get bit by many centipedes or tarantulas. Therefore he didn't have many chance to try some of the ole Kentucky snake-bite remedy.

G. L. Wainscott's soft drink manufactory, one of the largest in East of Lexington, has lately added a grape juice mixture to its product that would make Billy Bryan smack his lips over its flavor and tang.

Chief of police, McCord, poured, into the gutter, ten gallons of whiskey, which had been abandoned at depot by frightened travelers on way from Lexington to Knoxville, a few days since.

There are 300 troops training here, at the old show grounds on Jackson street.

A letter from Colorado County Texas, the writers old home, advises that a recent hail storm ruined the cotton crops and gardens all of which had to be planted again. That portion of the state certainly has its afflictions. Storms, tornadoes floods and droughts have made numerous visits there within last few years.

Luke McLuke asks: What has become of the old dad who used to buy his spectacles at the ten cent store? If Luke would visit the blue grass, pennyrile and stocks, he would find those old dads are yet numerous ("J. M.")

"HE LO'"
Since the families of Joe Oliver and C. C. Davis have moved from Winchester the Mt. Vernon colony has been reduced to five members, Dr. Myers and family and the writer. The Olivers are now located at Berea, a mighty good place, but the family likes the capital of Clark so well that the latter place will have them for citizens again next fall.

Clark county has a Rabbit town. It is reported that Col. Belgian Hare is the police judge; White Bunny the marshal; Wally Cottontail, Clerk; Texas Jack, town attorney, with 10 rabbits of good staying qualities for calaboose station keeper where members of rabbitdom are confined after filling up on cabbage juice, pea vines and apple tree barks. Interest in the primary election is waxing warm in the bunny city. There are two factions in the Jack Rabbit tribe and all sorts of accusations are flying in the air. One faction claims the other is again progress and good roads and that some of the candidates have bolted the regular ticket in times gone by. One candidate of the swamp tribe, is charged with having voted in Possumville beyond the town limits last year, and is ineligible to even run for dog-peltter. Several in their cards of an announcement claim to be the original, blown in the battle and a yard wide, never scratched a ticket sort of rabbits and promise faithfully to support the nominees, "scusin" nothing, no matter what is nominated. Others in the races say, privately, they will be ding-dug if they propose to support some of the opponents, on account of a yellow streak of fur that they carry around on their backs. There will be a hot old time in Rabbit-town recently.

The writer is pleasantly located with State Engineer, Will P. Caldwell, former county engineer of Boyle County. Office is located on second floor of Fraternity building near court house.

TO THE REPUBLICANS
OF ROCKCASTLE COUNTY:

It has been reported that I am opposed to Tom Mullins, our present sheriff, being the Republican nominee for County Judge. I would not make a statement in writing but for the fact that I am his nephew, Mr. Mullins having married my aunt. I am not opposed to him and have never told any person that I was opposed to him. In fact I am for him now and have been for him all the time. I have supported him in every race he has made, for the reason that I believe he would make an honest, efficient and capable officer. I favor his nomination and election for County Judge, as I know that he will use his best efforts to relieve the taxpayers of the present high rate of taxation and remove from their shoulders the heavy indebtedness now against the county. I not only favor his nomination, but am calling upon the Republicans of Rockcastle County to unite with me in furthering his interest as a candidate, believing that it is in the best interest of the Republican party to nominate him. He has a clean personal and political record, is a sober man and has always supported the cause of the Republican party.

CATARHAL DEAFNESS
CANNOT BE CURED

by local applications, as they cannot reach the diseased portions of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal deafness is caused by an inflamed condition of mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result. Unless the information can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrhal Medicine acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrhal Medicine. Circulars free. All Druggists 75¢.

Pale Faced Women Take Phosphates to Make Rosy Cheeks and Beautiful Forms.
Men Need Phosphates to Make Strong, Healthy, Vigorous Bodies.

Athletes increase their strength, energy and endurance 200 per cent or more by simply taking a few weeks treatment of Argo-Phosphate.

Atlanta, Ga. Dr. F. A. Jacobson says that Phosphates are just as essential to any man or woman who tires easily, is nervous, or irritable, worn out, or looks baggy and pale to make a strong, robust, vigorous healthy body, as they are to cotton to make it grow.

The lack of Phosphates is the cause of all enemic conditions and the administration of 5 grain Argo-Phosphate tablets will increase the strength and endurance of weak, nervous, care worn men and women 300 per cent in two or three weeks time in many instances, and their continued use will build up the whole nervous system, and give new life, vim, vigor and vitality to the whole body. I always prescribe Argo-Phosphates to patients who are pale and colorless and it is surprising to see how quickly a few weeks treatment will transform a pale face to a rosy-cheeked beauty.

There can be rosy-cheeked, healthy, beautiful women, without their system is sufficiently supplied with Phosphates. In recent interviews with physicians on the grave and serious consequences of a deficiency of Phosphates in the blood of American men and women, I have strongly emphasized the fact that doctors should prescribe more phosphates in the form of Argo-Phosphate for weak, worn out, haggard looking men and women. When the skin is pale and flesh flabby, it is a sign of

anaemia. When the phosphates go from the blood, the pink cheeks go too. The muscles lack tone. They become nervous, irritable, despondent, melancholy, the brain fogs, and the memory fails. Therefore if you wish to preserve your youthful vim, vigor, and vitality, to a ripe old age, you must supply the deficiency of Phosphates most easily assimilated.

NOTICE: Argo-Phosphates which is recommended and prescribed by physician in all enemic cases, is not a secret or patent medicine, but one that is sold and recommended by well known druggists everywhere, and physicians are subscribing the constituents contained in it. Being entirely unlike many other phosphates. It is easily assimilated and will be found effective in the treatment of indigestion and stomach troubles, as well as for care worn, nervous conditions. The manufacturers of Argo-Phosphate will forfeit to any charitable institution \$200.00 if they can not treat any man or woman under 65 who lacks Phosphates, and increase their strength and endurance from 100 percent to 300 per cent. or more in one month's time, if they are free from organic trouble. It is dispensed by reliable druggists.

If your druggist will not supply you, send \$1.00 to the Argo Laboratories, 10 Forsyth St. Atlanta, Ga., and they will send you a two weeks treatment by return mail.

Endurance—the Supreme Tire Quality

United States Tires have proved that they have that supreme quality,

—that miles are packed into their structure the way endurance is packed into steel.

A vast number of the motoring public know that by experience,

—and they have answered in the only way that the buying public can answer,

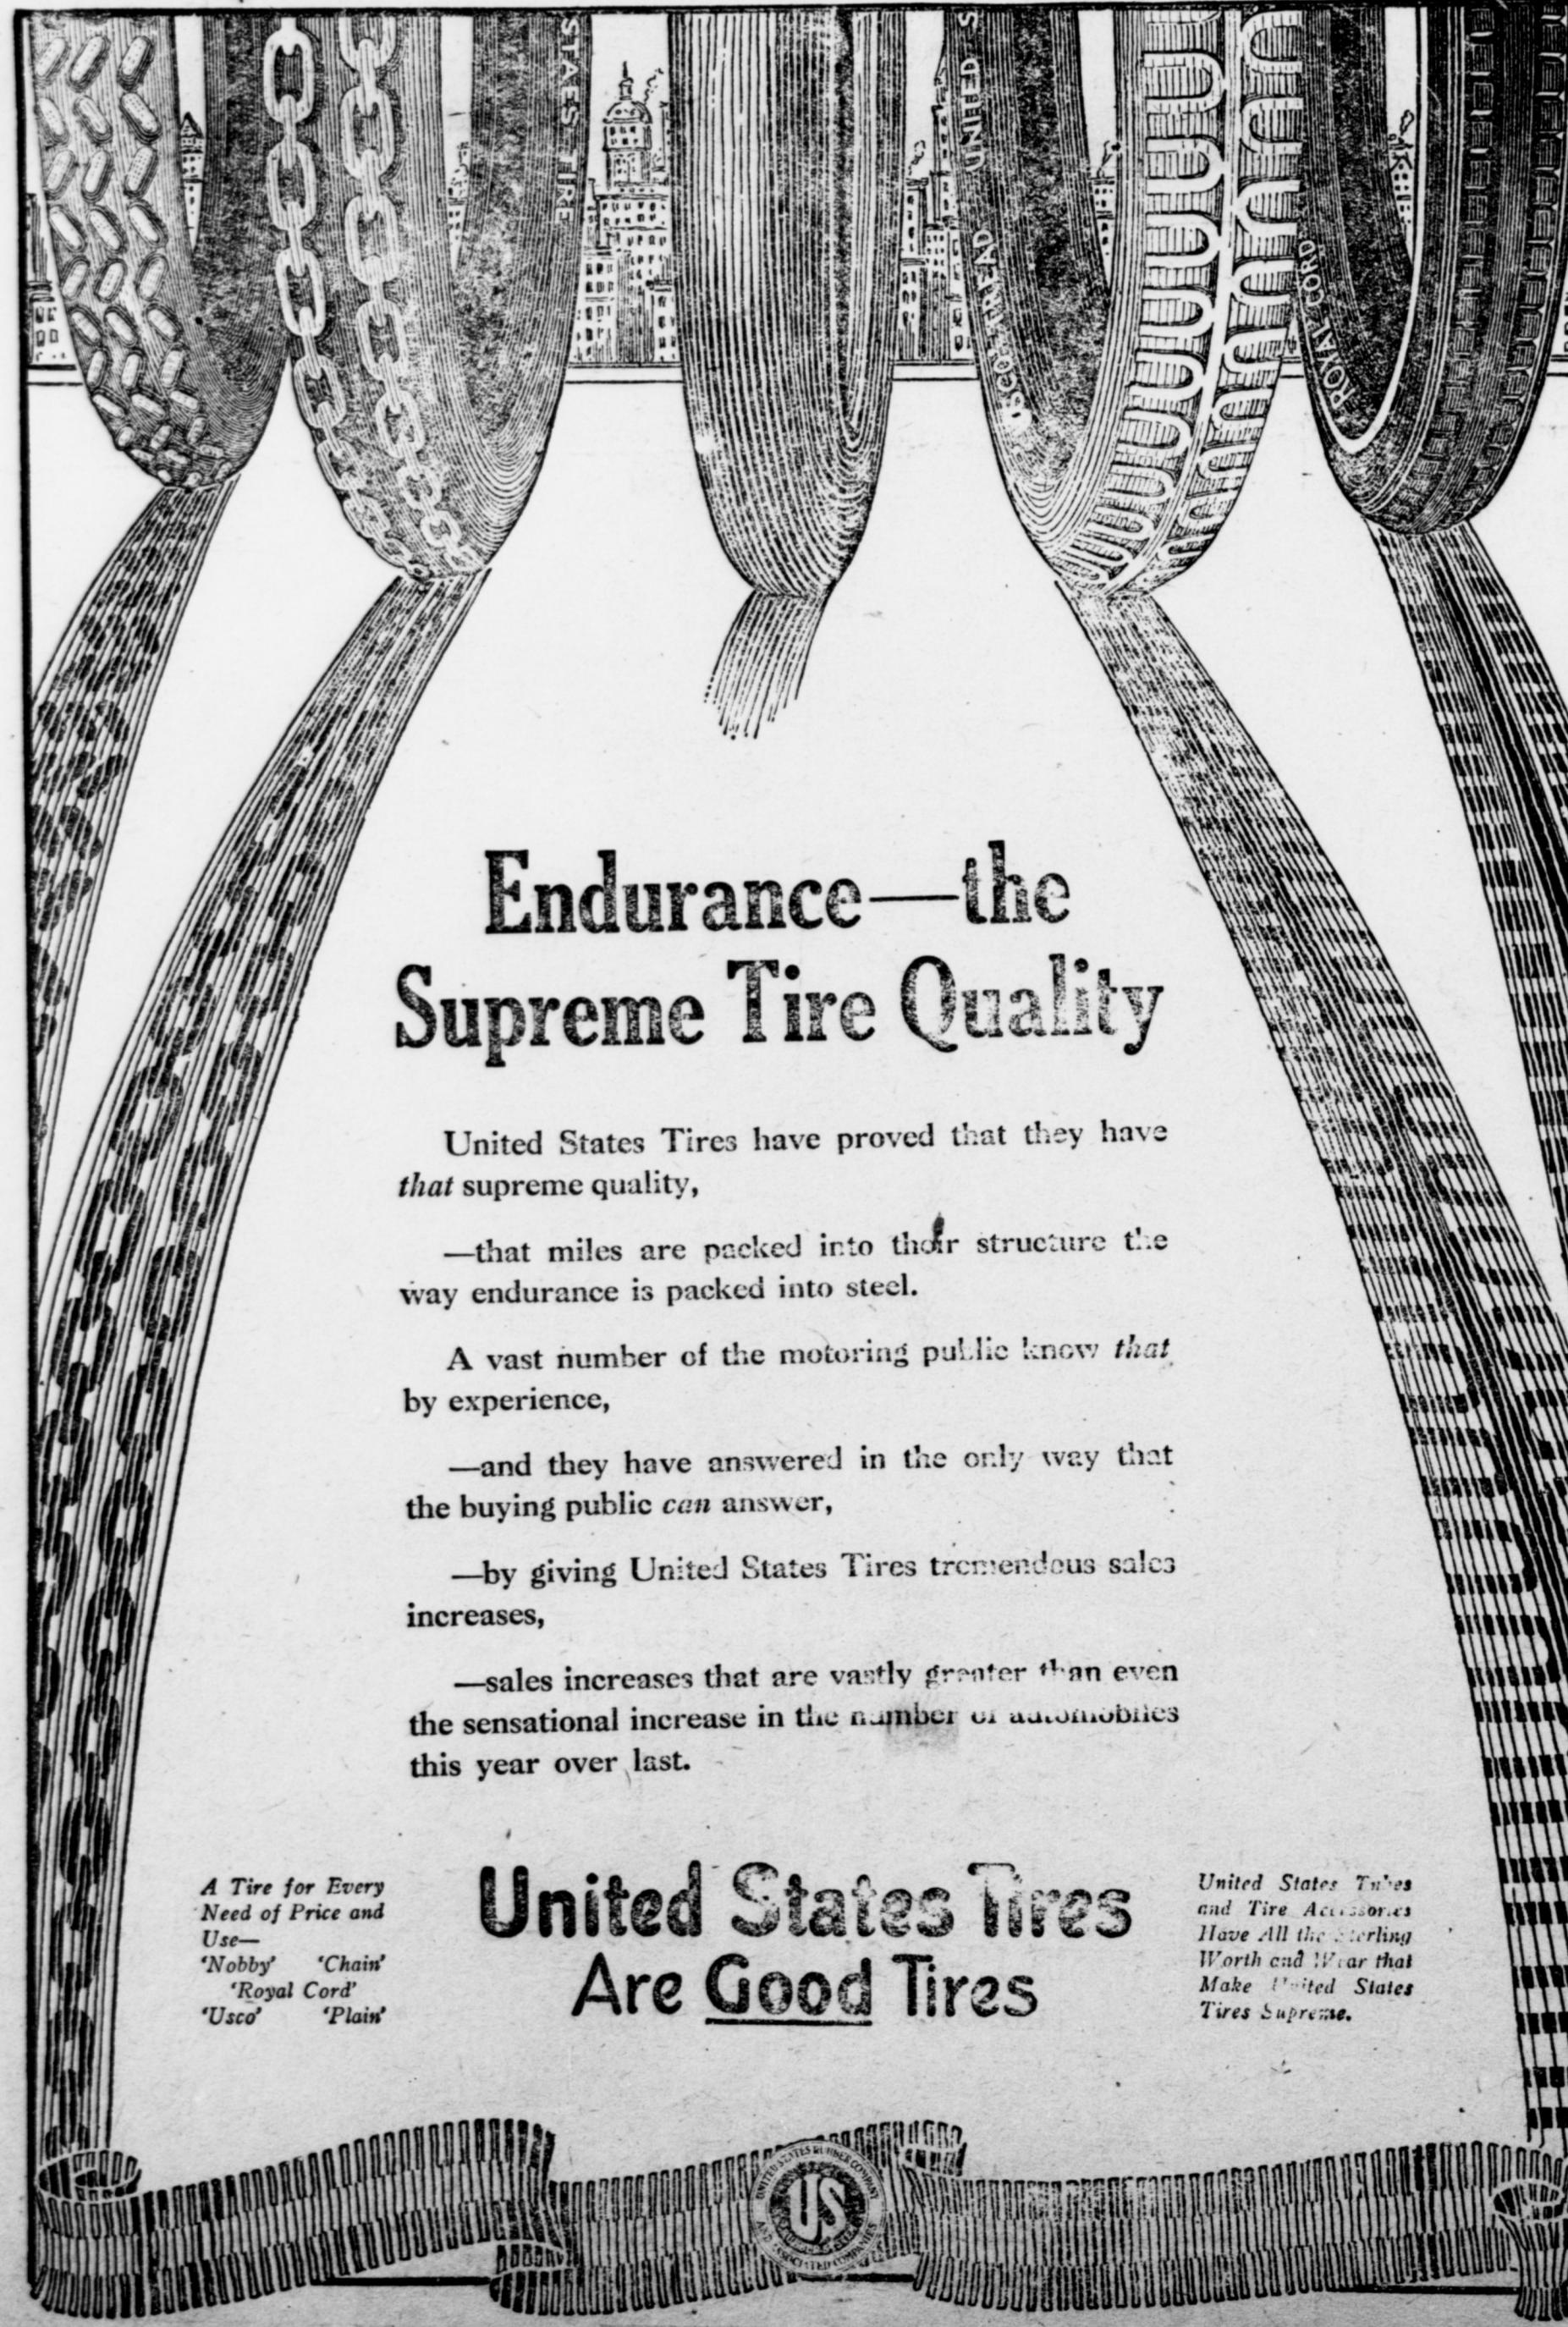

—by giving United States Tires tremendous sales increases,

—sales increases that are vastly greater than even the sensational increase in the number of automobiles this year over last.
